

One-stop cloud network management solution at a glance

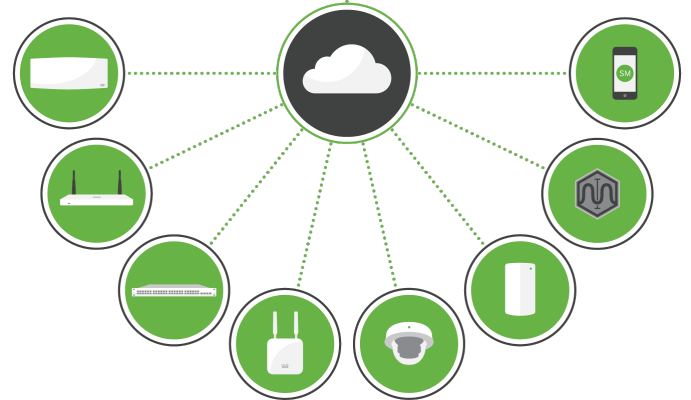

Empowering a workplace and workforce of the future

Embracing digital transformation is no longer an aspiration, it's a necessity for thriving in a world of perpetual change.

Are you in search of IT solutions that are scalable, secure, and seamless? At VCG, we help you discover the right solution for your business, ensuring secure connectivity and preparing you for the future of work.

With Cisco Meraki, businesses can introduce reliable cloud-managed networking ecosystems, providing centralised control, and visibility over their network infrastructure.

Cloud managed access

WIRELESS LAN

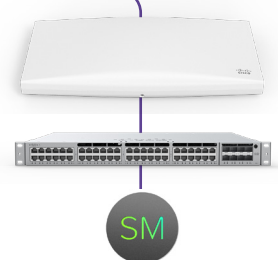

The industry standard for easy-to-manage, fast, and dependable Wi-Fi.

SWITCHES

Uncompromising performance and reliability at the heart of your network.

MOBILE DEVICE MANAGEMENT

Remote monitoring and identity-based configuration for all.

Software defined WAN

SECURE SD WAN

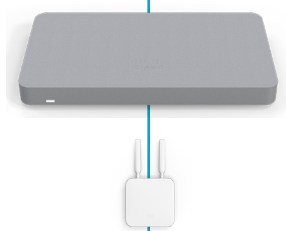

Protect and securely connect what matters most, regardless of location.

CELLULAR GATEWAYS

Extend your network to anywhere with a cellular connection.

REMOTE WORK

Provide security, convenience, and optimised access.

Connected IoT Solutions

SMART CAMERAS

Protect your people and assets with intuitive video and analytics.

SENSORS

Protect critical IT infrastructure with real-time visibility into environmental conditions.

IOT APPLICATIONS

Create smart workspaces. See them in action in the office, in public and in restricted spaces.

How Cisco Meraki can help you

Empower your business with a digital-first approach, leveraging a cloud-managed network to achieve agility, cost savings, resilience, and flexibility.

Meraki, trusted by a significant percentage of Fortune companies, optimises networks, secures locations, and seamlessly connects people, places, and things. Whether it's hybrid workforces or smarter workspaces, integrate technology and touchpoints to create exceptional experiences.

Simplifying your IT

Remote workforce for consistent connected experiences.

Secure connectivity for safer environments for everyone.

Smart spaces for driving efficiencies and employee engagement.

Case Study 1 - Simplifying IT Operations while reducing network maintenance and facilities costs

Challenges

Achieving efficient and cost-effective networking solutions for security, connectivity, and performance.

Solution

Deployed Meraki, MR, MX, MS and MG cellular gateways for pop-up store connectivity. Utilised MT sensors to monitor temperature and humidity, and MV cameras for HQ security.

Result

Reduced time and cost with faster software updates. Achieved energy savings (3%) with MT sensors. Time reduction due to simplified switch deployment.
